Entrepreneurship Challenges for People with Disabilities Workshop

People with disabilities face several challenges that require sustainable and innovative solutions...

A workshop was held at the Authority for the Care of Persons with Disabilities (APD), with the participation of several entities, to identify the key sectors in need of investment and development of solutions for people with disabilities.

Real Estate Sector

The Challenge:

There is a shortage of available real estate services and products specifically related to preparing buildings for people with disabilities.

Tourism Sector

The Challenge:

There is a shortage of specialized tourism services for arranging travel for people with disabilities.

Transportation Sector

The Challenge:

There is a shortage of high-quality and reasonably priced transportation solutions for people with disabilities.

Proposed Solution: Designing green circles to develop solutions to address challenges in the specified sectors.

As a result, a specialized program has been designed to raise awareness among people with disabilities in entrepreneurship.

Social Responsibility Center (CSR)

- Connecting with an interested funding party.
- Monitoring and tracking to ensure benefit and measuring impact.
- Attracting and motivating the target group to participate.

Monshaa'at

- Providing space for work and implementing the initiative.
- Offering advisory sessions in the field of social entrepreneurship.
- Delivering the specialized training program in entrepreneurship to the target audience.

Authority for the Care of Persons with Disabilities (APD)

Connecting with experts and individuals interested in the field of serving people with disabilities.
